Q05 In less than 100 words, describe your final product and the briefly about the idea development.

We decided to use soundclip 3 as we found soundclip 3 is more interesting we had chosen Jennifer's idea as our finalised group idea. Our finalised storyline is about Rat #2 was kidnapped by a few ninja and she's being hoitage at the ninja's place, so Rat #1 which is sister of Rat #2 decided to go rescue Rat #2. So rat #1 started packing her things and her prized possessions which is the katana and a few shurikens, so she can defend herself. While going up the elevator, 4 ninjas were already waiting to attack her. When she finally arrived on the same level, the ninjas started attacking rat #1. But thankfully, Rat #1 is very good at martial arts so she successfully killed the ninja and saved Rat #2. But suddenly the ninjas came back to life and started to attack Rat #1. To protect rat #2 and herself, she used all her shuriken to attack the ninjas and she succeed in killing all the the ninjas. After the attack, they both denied to their hearts content. The end.
